

Adobe Expands Operations in India with New Office Tower in Bengaluru

Adobe strengthens its commitments to foster global innovation, and talent development in India

Bengaluru, India, April 24, 2023 – Adobe today announced the opening of a state-of-the-art office tower in Bengaluru. The all-new facility will host over 2,000 employees and is next to Adobe's existing Prestige Platina Tech Park campus in Bengaluru. With over 7,800 employees spread across five campuses in the country, India is Adobe's largest employee base outside the United States, and a major hub for software innovation, and business development. This marks Adobe's continued strategic investments in innovation led business growth. Earlier last month, [Adobe had also announced the opening of its new Founders Tower in San Jose, California.](#)

"Adobe was among the first technology companies to invest in India 25 years ago. Today, our India teams are central to Adobe's global innovation agenda and cross cloud leadership – they're leading the charge on our Digital Learning and Print business, fuelling development of products across Document Cloud, furthering the reach of Experience Cloud solutions, reimagining our Creative apps ecosystem with Artificial Intelligence-led innovation, and more. Our Bengaluru office expansion marks the next chapter in Adobe's incredible journey in India, and we're excited about the technology and talent that will emerge over the next 25 years", said **Abhigyan Modi, Country Manager – Adobe India & Senior Vice President – Document Cloud, Adobe.**

"Bengaluru is a major hub for software innovation and our offices in this city have allowed Adobe to attract some of the best talent in the industry. With the opening of our new office tower, we're expanding our presence and commitment to India, adding capacity and growing our innovation out of the Bengaluru campus. We continue to be dedicated to building workplaces that further innovation, collaboration, community, sustainability, and delivering the most exceptional employee experiences", said **Abdul Jaleel, Vice President, Employee Experience, Adobe India.**

The new Adobe office tower in Bengaluru houses world class infrastructure and interiors to maximise employee experience. The building design embraces a digital-first mindset that represents Adobe's hybrid workplace philosophy centered around empowering employees to come together for the moments that matter, build connections, foster community, and enable creativity. On each floor, employees can take advantage of unique spaces like quiet focus rooms, collaborative co-working spaces, modern workstations, vibrant meeting rooms, and more.

In line with Adobe's philosophy of ensuring all its office spaces are built to be sustainable-by-design, the company's new Bengaluru office Core and Structure are Gold certified by Leadership in Energy and Environmental Design (LEED). Among several environmentally friendly practices implemented across the facility, the new tower will use Green and Solar power to feed 90% of its energy demands and has 100 charging stations for Electric Vehicles.
